Summary

Full Stack Web Developer with 8+ years of professional experience delivering scalable **web applications, automations, and record retrieval systems**. Specialized in **WeWeb + Xano**, **RESTful APIs**, and **cloud-based workflows (AWS, Azure)**. Strong background in **automation platforms** (UiPath Certified, Make, Globiflow, Zapier, Podio, Salesforce), with proven success in integrating multiple SaaS ecosystems. Skilled in both **front-end UI/UX** and **back-end data engineering**, with advanced knowledge in **PHP, JavaScript, Python, Java, and SQL**.

Experience

1. Senior Web Developer

[Productly.dev](#)

Jun 2023 – Present

- Delivered fast-paced development using **WeWeb + Xano**.
- Designed and integrated **custom API endpoints** with Filevine, AWS, RingCentral, and third-party SaaS.
- Automated pipelines with **AWS Lambda + Transfer Family**, reducing manual file handling by 70%.
- Built and maintained the **entire Record Retrieval System** (end-to-end dashboards, sync automation, AWS pipelines, and data management), supporting thousands of legal case documents.

2. Full Stack Web Developer

[Chandler \(Integrated OS\)](#)

Jan – Apr 2023

- Managed client accounts within **CX Engine** platform.
- Worked with **Azure + SSIS** for data pipelines and reporting.
- Contributed to Agile sprint planning and feature delivery.

3. Full Stack Engineer

[Temple & Webster \(Diversify OSS\)](#)

Jun 2022 – Nov 2022

- Enhanced client e-commerce platform using **legacy PHP** and internal frameworks.
- Participated in daily client stand-ups, backlog grooming, and sprint delivery.
- Used **GitHub** for version control and collaboration.

4. Data Engineering Sr. Analyst **Accenture** *Aug 2021 – Jun 2022*

- Automated file workflows on **Azure servers**, improving client reporting efficiency.
- Supported client operations using **OneStream XF & Oracle Hyperion**.
- Gained training in **blockchain, metaverse, 5G, and cybersecurity trends**.

5. Technical Specialist **Yoonet Philippines** *Jun – Aug 2021*

- Re-assigned due to company needs for advanced technical problem-solving.
- Provided **hardware/software troubleshooting** and client solutions with emerging tech stacks.
- Built internal **web apps** using RESTful APIs, JSON, and PHP.

6. App Developer / RPA Developer **Yoonet Philippines** *Nov 2018 – Jun 2021*

- UiPath **Certified RPA Developer**: built, deployed, and managed bots automating client workflows.
- Led a team of 3 developers to deliver client platforms and applications.
- Built a **task/ticket management platform** with REST APIs, PHP, and Podio integrations.
- Developed **mobile apps** with Android Studio, Firebase, and MySQL.
- Created **Attendance/Payroll systems** in VB.Net and C#.Net.
- Received **Employee of the Month (2019)** and **Innovation Award (2019)**.

7. Production Assistant **Orica Philippines Inc.** *Dec 2017 – Jul 2018*

- Managed barcode printing and encoding for mining explosives.
- Assisted in production process documentation, PPE distribution, and file scanning.

8. Web Developer **Center for Integration of Technology in Education (CITE)** *Feb – Jun 2017*

- Built and maintained websites in **PHP/MySQL**.
- Developed desktop apps including Payment, RFID, Election, and Library systems using **C#.Net**.

9. Jr. Technical Assistant / Product Analyzer **Mitsumi Philippines, Inc.** *May – Aug 2016*

- Performed QA for electronic products and led shift-based reject analysis.
- Trained in Japanese Lean Manufacturing methods (5S, 7 Wastes, HoRenSo).

Education

1. **Bachelor of Science in Computer Science**, Limay Polytechnic College, 2016
2. **Associate in Computer Science**, Limay Polytechnic College, 2012

Certifications

1. UiPath **Certified RPA Developer**
2. Accenture **OneStream Application Build (ABC)**

Awards

1. *3rd Place – TechXplore Code Challenge 2020*, Accenture Philippines (React Native + NodeJS) Aug 2020
2. *Employee of the Month* – Yoonet, Jul 2019
3. *Innovation Award* – Yoonet, Dec 2019
4. *Computer Programming Champion* – Limay Polytechnic College, 2013
5. *Service Award* – Limay Polytechnic College, Mar 2012

Portfolio

Web Application Development

1. [Recordsync.io](https://recordsync.io)
 - Rebuilt a legacy desktop app into a **WeWeb + Xano** web app.
 - Designed **UX/UI** in **Figma** and integrated with **Filevine API**.
 - Automated PDF processing via **PDF.co** and workflows with **Make**.
 - Secured file transfers using **AWS S3 + SFTP**, ensuring **HIPAA** compliance.
2. [PageCraft Publishing](#)
 - Created a WordPress website for a Publishing company.
 - I make the design, copy, branding and SEO.
3. **YooTasker (Chrome Extension)**
 - Built with **HTML/CSS/JavaScript (frontend)** and **PHP (backend)**.
 - Integrated with **Podio API** to create, update, and manage tasks.
 - Utilized **JSON, MySQL, and jQuery**.
 - [Historical copy on ChromeStats](#) (no longer active on Chrome Web Store).

4. YooData (Web App)

- [Project link](#)
- Collected daily task data for Yoonet employees with **Podio API integration**.
- Random desktop popups prompted employees to log active tasks and associated clients.
- Status: **Inactive**.

5. Alleen.biz (E-loading Platform)

- [Archived version](#)
- Managed load, balance, and cash transfers between merchants.
- Developed with **HTML/CSS/JavaScript frontend** and **PHP/MySQL backend**.
- Status: **Inactive**.

Android App Development

1. Yoonet App (Play Store)

- [App link](#)
- Allowed customers to view open requests and submit new ones via audio.
- Implemented **Google OAuth 2.0 authentication**.
- Built with **Android Studio (Java), Firebase, and MySQL**.

2. YooCapture

- [Project link](#)
- Real-time tardiness/emergency photo documentation app for Yoonet employees.
- Stored images locally.

3. EmberEye (College Thesis Project)

- [Project site](#)
- Fire detection app integrating **Arduino Uno** and Android.
- Alerts users of fire incidents and pinpoints locations using **Google Maps**.

Desktop Application Development

- | | |
|---|---------------------------------|
| 1. Library System | – C#, 2017 |
| 2. Police Blotter/Missing Person System | – VB, 2015 |
| 3. Election System | – C#, 2017 |
| 4. ID (RFID) System | – C#, 2017 |
| 5. Payment System | – C#, 2017 |
| 6. HR/Attendance System | – VB, 2021 C# (Payroll), 2021 |
| 7. Acelle's Meatshop POS | – VB, 2015 |

Other Projects

1. **Attendance Monitoring / Manning System (Excel)**
 - Deployed at **Orica Production Site** for worker re-assignments and attendance tracking.
 2. **Accenture TechXplore Code Challenge 2020 (Virtual Hackathon)**
 - Built a **Virtual Medical Consultation Web App** using **ReactJS** and **NodeJS**.
 - Earned **3rd Place** despite project being incomplete.
 3. **Robotic Process Automation (RPA)**
 - Created multiple automation bots using **UiPath + VB.Net**, simulating user behavior (clicking, scrolling, copy/paste).
 - Delivered both **Unattended (fully automated)** and **Attended (with human oversight)** solutions.
 4. **Personal Blog**
 - curbsidecoder.tech/blog — personal tech blog on programming, automation, and self-improvement.
-

Core Skills

- | | | |
|--------------------------------------|---|---|
| 1. Frontend | : | WeWeb, React, HTML, CSS, JavaScript, Figma |
| 2. Backend | : | Xano, PHP, NodeJS, Java, Python, REST APIs |
| 3. Mobile | : | Android Studio, React Native, Firebase |
| 4. Databases | : | PostgreSQL, MySQL, MS SQL Server, Xano, MS Access |
| 5. Automation & SaaS | : | UiPath, Make, Globiflow, Zapier, Podio, Salesforce, Filevine, Slack, PDF.co, Geoapify |
| 6. Cloud & Infrastructure | : | AWS (S3, Transfer Family, Lambda), Azure |
| 7. Other | : | SEO, Chrome Extensions, Agile/Scrum, Jira |
